Our job as a printer and a direct marketer is to educate others on the most effective way to market themselves with the combination of quality, copywrite, mail lists, and technology. Our podcast helps small businesses that wear multiple hats day to day to be able to learn what they need to compete with large companies. Our free marketing analytic tools on our web-site allow companies to measure the ROI on their marketing, which even many large organizations don't know. This gives us small companies a definate edge.”

[www.easymailmaker.com](http://www.easymailmaker.com) allows users to sign up for a free account to create, design, customize and order products such as postcards, business cards, flyers, brochures, automatic postcard newsletters, and more. They also educate clients on the use of combination marketing and combining direct mail with PURL's(landing pages) which dramatically boosts ROI. They use marketing analytics to help clients understand how effective their ROI is and what they should improve.
